

WikiTasksCCSS

Teachers creating common core lessons!

“Blended” Coaching and Webinars for WikiTasksCCSS Lesson Development

Facilitated by Nick Hobar, [LearningFront](#) Team Leader & Coach

I Do! Share a completed CCSS lesson and show how it was developed with integrated social media and PD tools and converted into a WikiTasksCCSS Lesson.

We Do! Explore and discuss ways to adapt the lesson development process for any grade level and school and share ideas for blended F2F and online coaching to support teachers.

You Do! Try the lesson development steps on your computer with the [free LearningFront](#) integrated tools to create and share your own WikiTasksCCSS lesson.

Collaborate to design “Blended” Coaching and Webinars to meet your needs.

- For teachers to support CCSS-based lesson and assessment development
- For school-based coaches to apply blended PD strategies on-the-job
- For instructional leadership teams to apply in school-based initiatives

Contact [Nick Hobar](#) to explore your ideas for collaborating and improving learning.
